

I was recently made aware of an important issue regarding expansion of LPFM that may compromise current FM translators that are vital to the broadcast of K-Love radio. I am a resident of Scottsdale, Arizona and find that K-Love radio provides a much-needed (and unfortunately infrequently found on other radio stations), word of hope and encouragement to its listeners. It provides a free voice for many non-profit organizations that would otherwise not be heard and offers family-friendly entertainment that is filled with positive programming. There are all too few of such means of entertainment that can be enjoyed by the whole family; I implore you to keep K-Love on the air. Thank you.
